Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 December 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 68, 73, 74, 76, 77, and 82 are rejected under 35 U.S.C. 103(a) as being unpatentable over Turley et al. in view of Ronzani et al.

Turley discloses a system including a wearable apparatus comprising a computer (200), a data collection instrument (electric probe, 530), a first camera (535), a display (432), a microphone (450, 452), a power source (644a, 644b), a harness (604), the computer is adapted to provide testing and diagnostic capability to the user, the electrical probe includes positive and negative test leads, to the same degree claimed; and the image data includes real time video, but does not teach a speaker and a second camera. However, Ronzani teaches a headset comprising a speaker (16) and a microphone (17). It would have been obvious to attach a speaker to the headset of Turley (452, Figure 4) to receive audio input as taught by Ronzani. Doing so would provide easily accessible audio input and output for the user.

Regarding claims 77 and 82, it would have been obvious to connect an additional camera to the system. Doing so would provide additional means of collecting imaging data.

Response to Arguments

3. Applicant's arguments filed 12/23/03 have been fully considered but they are not persuasive. The data collection instrument of Turley collects Property Data and contains a test probe having positive and negative test leads, to the same degree claimed by applicant, inasmuch as the Property Data and test leads have been set forth in specification and claims.

Art Unit: 3727

4. In response to applicant's argument that the data collection instrument does not collect Property Data, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
